RESEARCH PROGRAMME - PLANNED WORK
Adapted from the lab project document. Objectives and applications are plans, not completed research findings.

Intelligent Marketing & Platform Disclosure - Research programme

01 / Scope

Connect digital consumer journeys, demand discovery, and lifetime value with research on AI disclosure, trust, and platform incentives.

02 / Research questions

How do algorithmic transparency and AI disclosure affect consumer trust?
How does disclosure influence power and dependence on platforms?
How can incentive-compatible mechanisms improve two-sided markets?

03 / Planned applications

Consumer demand and lifetime-value modelling
Online-offline marketing research
Disclosure and incentive-design studies

04 / Status

Adapted from the lab project programme. Research objectives and applications are plans, not completed findings or deployed systems.
