RESEARCH PROGRAMME - PLANNED WORK
Adapted from the lab project document. Objectives and applications are plans, not completed research findings.

AI Disclosure & Platform Governance - Research programme

01 / Scope

A focus within the marketing and platform-disclosure direction, examining transparency, trust, and incentive design.

02 / Research questions

What should users know about the role of AI?
When does disclosure strengthen or weaken trust?
How can platform incentives account for disclosure?

03 / Planned applications

AI-disclosure study designs
Consumer-trust research
Platform incentive analysis

04 / Status

Adapted from the lab project programme. Research objectives and applications are plans, not completed findings or deployed systems.
